Countertop shown in Slate MSS-601

WINSOME SERIES

The Winsome colors have linear veins with a distinct direction. The variation within each color is subtle with soft contrasts moving in and out of the pattern. These colors were selected specifically to support commercial design palettes, in addition to having residential applications. The neutral shades are versatile and can be paired with a wide array of colors. Thought should be given to laying out the linear design for "L" shaped countertops.

On the cover: Countertop shown in Tombolo MSS-817

Mystera Solid Surface offers striking designs for practical performance. From the bold to the subtle, the colors of Mystera can be thermoformed and fabricated for any surface application.

The properties of Mystera Solid Surface give a hygienic, non-porous, mold and bacteria resistant surface for a clean work environment, and meet strict commercial guidelines for restaurants and healthcare.

All Mystera products are covered by a ten year limited liability warranty.

ARTISAN SERIES

The Artisan series offers a wide range of colors in particulate and solid visuals. The colors are appropriate for all commercial applications and can be used in residential design when a quieter palette is specified. The simplicity of the design will fit the budget for most any project.

FUSION SERIES

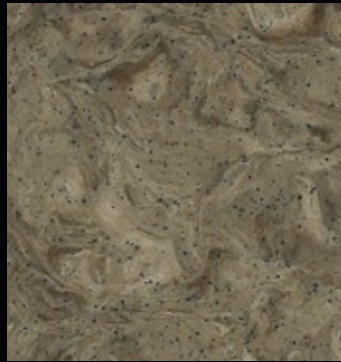

The Fusion colors have multi-directional veining and typically show two color tones. Most Fusion colors offer a quiet backdrop for featured design elements.

Rainforest MSS-500

Buckskin MSS-501

Thunder MSS-502

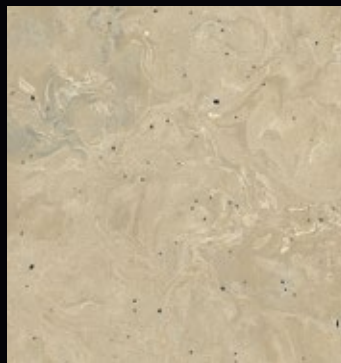

Seashell MSS-503

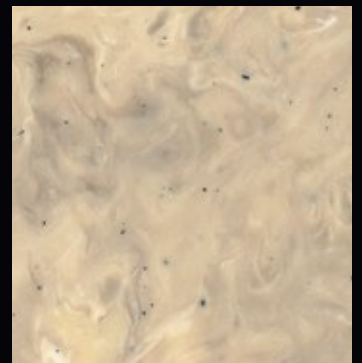

Santa Fe MSS-526

Glacier MSS-527

Desert MSS-530

Tuscany MSS-552

PLATINUM SERIES

The Platinum colors, like the Fusion colors, have multi-directional veining. However, Platinum colors have more pigmentation to create a richer presentation. The bold look of the Platinum colors can be used as a focal point, or mixed with other contrasting designs.
